Axel's Portfolio

Hello, Im

Axel Darren Suryanto

Hello! I'm Axel, an Information Systems undergraduate passionate about technology. I express my creativity through music, playing guitar and piano, and I've recently started playing badminton. I'm eager to share my passion for innovation and leadership with you.

Contact

Hyve

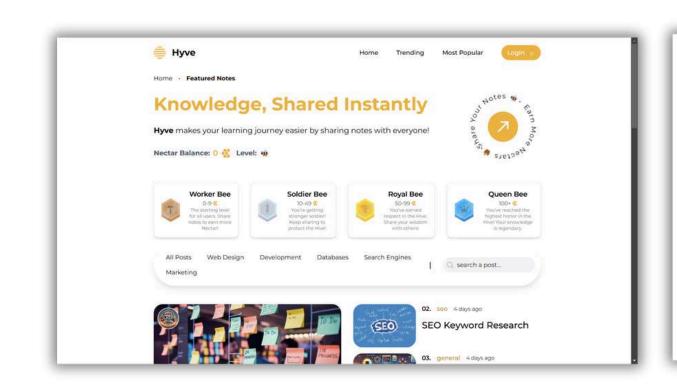

React.js, TailwindCSS, Node.js, MongoDB

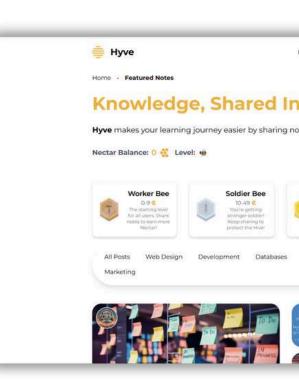

Role: Full-Stack Software Engineer

Hyve is a collaborative platform for sharing academic notes and quizzes. It offers secure OAuth authentication and incorporates gamification with points and leaderboards to boost user engagement. The front-end is hosted on Netlify, while the back-end runs on Render for scalability and reliability.

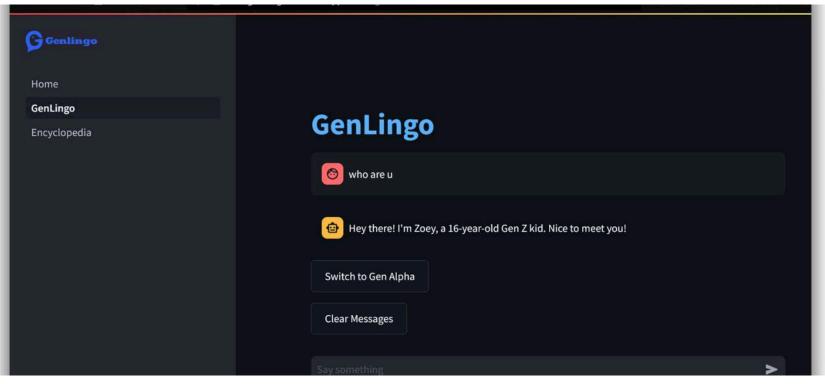

Contact

Genlingo \$16

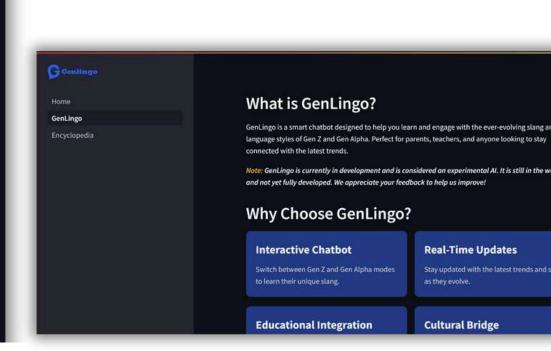

Python, Streamlit, Falcon LLM

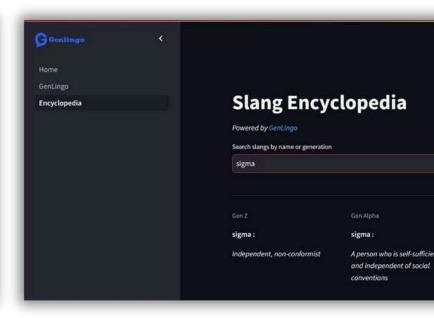

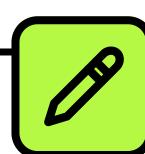

Role: Al Engineer & Frontend Dev

GenLingo is an interactive chatbot that aids users in understanding and using contemporary slang from Gen Z and Alpha generations. It includes two modes, a searchable slang encyclopedia, and uses the Falcon 180B language model for real-time conversations, all within a user-friendly interface.

Portfolio

Contact

Napy.id

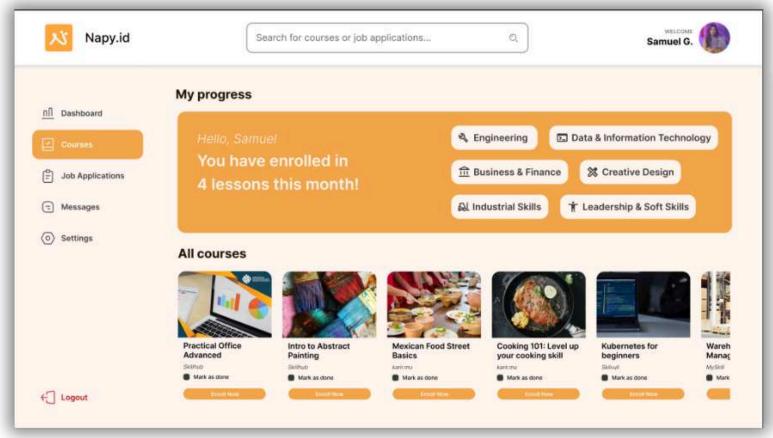

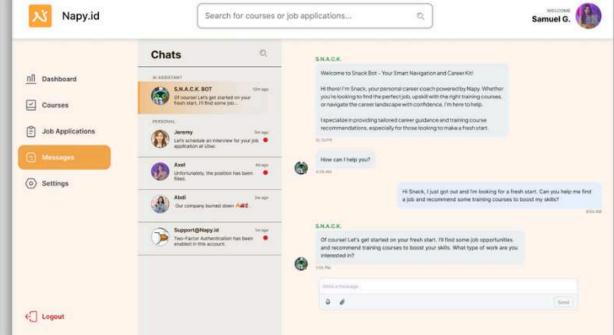

HTML, CSS, JS, Python, Figma

Role: Backend & Project Manager

Napy.id is a web-based platform with the goal of assisting ex-convicts in their reintegration journey. The platform provides access to job opportunities, skills training courses, and a conversational chatbot assistant.

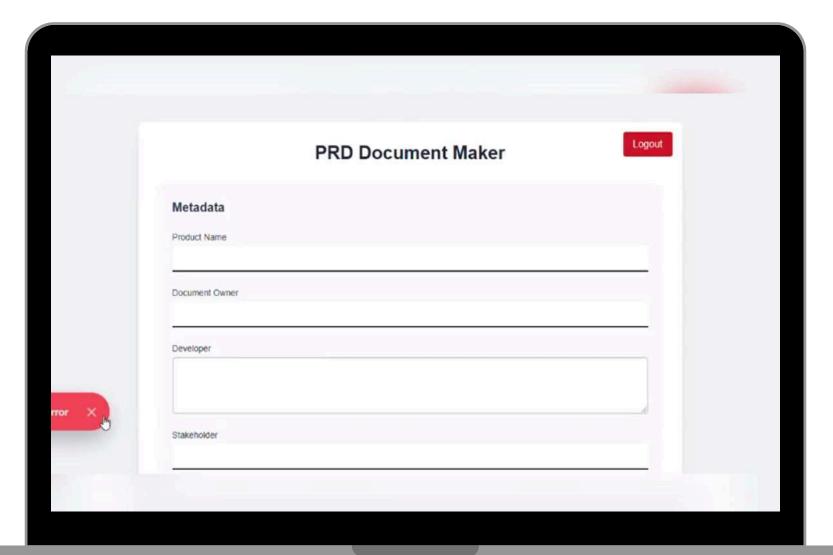

PRDify

Next.js, Node.js, Express.js, Google Cloud

Role: Backend and Cloud Engineer

PRDify automates Product Requirement Document (PRD) generation using Large Language Models (LLM) and Google Cloud. It employs a microservice architecture, with a Next.js frontend and Express.js backend on Cloud Run.

Contact

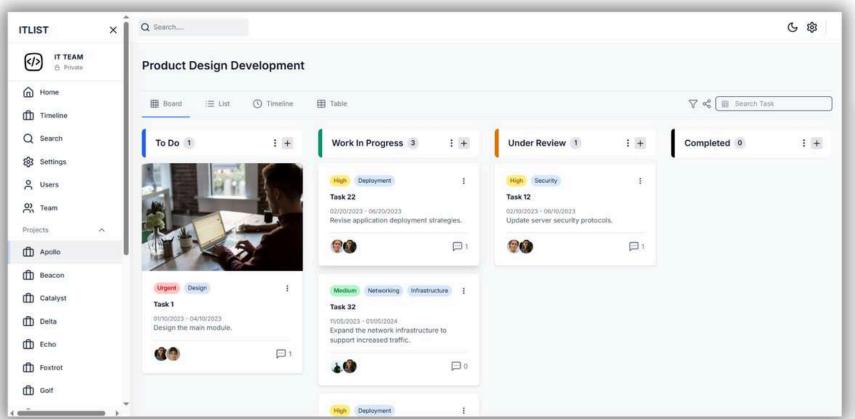

ITList

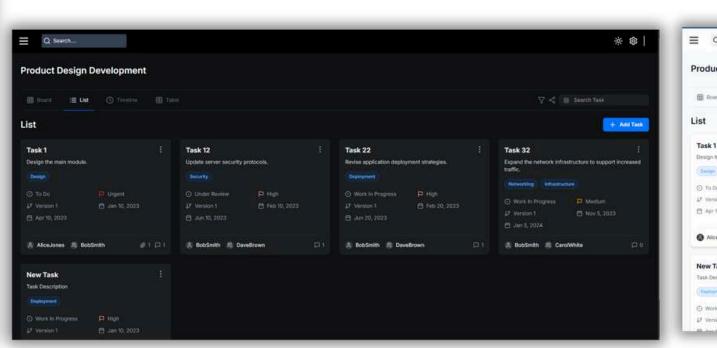

Next.js, TailwindCSS, Node.js, MySQL

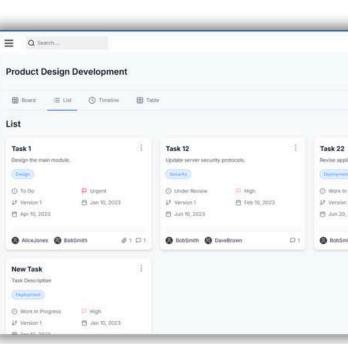

Role: Independent Developer

ITList is a project management web application that centralizes and streamlines the tracking of IT projects and documentation. It offers a platform for managing project lifecycles, tracking progress, and ensuring easy access to organized project documents, enhancing efficiency in IT department operations.

Let's innovate together!
